

PhD School in " Nano- and Physical Sciences" 2008

Evaluation Meeting

The Evaluation Meeting for the students that have completed the first year will be organized for Monday March 3 15.00-19.00 Seminar Room S3 (all students)
Information about your presentation concerning the activity of the last year

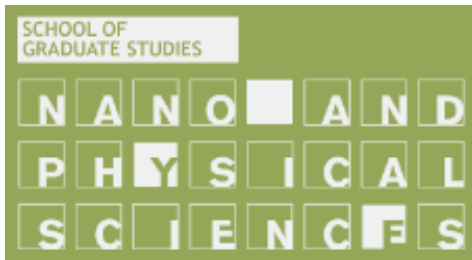

You have 25 minutes in order to present:

A talk about your research activity in the last year including:

- i) Title of your thesis and Tutor
- ii) Motivations of your work
- iii) International Panorama
- iv) Used methodologies: i.e. experimental or theoretical tools
- v) Reached results

Slides containing a list of the courses you have attended, seminars you have followed, external Schools, Conferences, Publications, etc. (see the format for the report).

The Director of the PhD School in " Nano- and Physical Sciences"
Prof. Stefano Ossicini

PhD School in Physical and Nanosciences

PhD Student:

PhD

Physics

Nanosciences

Study Plan for the First Year (2007)

Courses

- 1)(passed examination, 4 credits)
- 2).....

Seminars

I attended numerous seminars, including:

1).....

2).....

External courses and schools

I have so far followed the following courses/schools:

.....

Attended Conferences:

... poster presentation, oral presentation....

Publications:

....

Tentative Title of your PhD thesis and Name of the Tutor

Report on the research activity of the first year

My PhD activity has so far focused on
